## PROFESSIONAL SUMMARY

Computer Engineering graduate from Diponegoro University with a strong academic record and experience in web and mobile application development. Contributing in backend development, REST API integration, and relational database design, with research experience in software architecture and performance evaluation. Combines a foundation in networking and cybersecurity with experience in team coordination, documentation, and community engagement to support collaborative development and practical problem-solving.

## EDUCATION

**Diponegoro University**
*Bachelor's Degree in Computer Engineering | 2022 - 2026*
GPA: 3.87/4.00 | Semarang, Central Java
*Undergraduate thesis: Monolithic and microservice performance evaluation for the Dekstra village service system.*

## TECHNICAL SKILLS

**Programming:** Python, PHP, JavaScript, SQL
**Web and Mobile:** Django, Django REST Framework, React Native, Expo, HTML, CSS
**Databases:** PostgreSQL, MySQL, SQLite, Django ORM, relational database modeling
**Application Engineering:** REST APIs, JWT, email OTP, access control, document workflows, monolithic and microservice architectures
**Infrastructure and Performance:** Docker Compose, Redis, Celery, Locust, Prometheus, Linux
**Networking and Security Coursework:** IPv4/IPv6, switching, routing, risk management, threats and vulnerabilities, SIEM and IDS fundamentals

## PROJECTS

**Dekstra Village Service System**
*Backend and database contribution | Nov 2025 - Apr 2026*

- Developed Django REST APIs and PostgreSQL models for village letter requests and approvals across resident, RT, RW, administrator, and village head roles.
- Implemented JWT authentication, email OTP, access control, request history, notifications, and background document generation using Redis and Celery.
- Completed the backend; village implementation is pending.

Monolithic code | Microservice code

**Arsipal Administrative Document Archiving System**

*Software Developer Intern | Banyumanik Subdistrict Office*

*Semarang, Central Java | Jan 2025 - Mar 2025 | Django, SQLite*

- Developed a Django and SQLite application for administrative document archiving with a web interface.
- Implemented PDF uploads, archive search by document attributes and dates, record updates, downloads, and summary dashboards.
- Added extraction of selected PDF metadata to fill missing archive fields, user authentication, and login history.

**Library Management System**

*PHP, MySQL, HTML, CSS*

- Developed separate staff and student interfaces for book management, borrowing, returns, and available quantity updates.
- Implemented student registration, book search, borrowing records, and in-app messages.

Project code

**Star Wars Info**

*React Native, Expo, JavaScript, SWAPI*

- Developed a mobile application using SWAPI to display character, film, planet, and starship information.
- Implemented tab navigation, pagination, refresh interactions, loading states, and detail modals.

## UNDERGRADUATE RESEARCH

**Monolithic and Microservice Performance Evaluation**

*Undergraduate thesis | Diponegoro University | 2026*

- Reimplemented the monolithic backend as user, document, and reporting services with separate databases and synchronous communication.
- Compared equivalent functions, endpoints, test data, workloads, and server capacity through load, stress, and spike tests.
- Used Locust and Prometheus to measure response time, throughput, error rate, CPU usage, and RAM usage.
- Analyzed lower response times and higher throughput in the tested microservice implementation, alongside greater RAM requirements.

## CERTIFICATES AND TRAINING

- Full-Stack Development - Nasional | Komdigi Digital Talent Scholarship | Oct 2026
- Front-End & Back-End Development - Nasional | Komdigi Digital Talent Scholarship | Oct 2026
- Intermediate Assistant Web Developer - Nasional | Komdigi Digital Talent Scholarship | Oct 2026
- Fundamental of Assistant Web Developer - Nasional | Komdigi Digital Talent Scholarship | Oct 2026
- Programming Fundamental - Nasional | Komdigi Digital Talent Scholarship | Oct 2026
- Final Courses and Certificate Cybersecurity | Komdigi Digital Talent Scholarship | Oct 2026
- Intermediate Cybersecurity + AI Essentials | Komdigi Digital Talent Scholarship | Sep 2026
- Google Cybersecurity Professional Certificate | Google via Coursera | Aug 2026
- Associate Data Scientist + Python | Komdigi Digital Talent Scholarship | Mar 2026
- Intermediate Associate Network Administrator | Komdigi Digital Talent Scholarship | Mar 2026
- Fundamental of Associate Network Administrator | Komdigi Digital Talent Scholarship | Mar 2026
- Pengenalan Data Science dan Pemanfaatannya di Berbagai Sektor | Komdigi Micro Skill | Feb 2026
- Cyber Security (Grade A) | DSAREA | Jan 2026
- CCNA: Enterprise Networking, Security, and Automation | Cisco Networking Academy | Jan 2026
- Intro to Data Analytics | RevoU | Jan 2026
- Digital Safety and Security Awareness | Cisco Networking Academy | Nov 2025
- HCIA-AI V3.5 Course | Huawei Talent Online | Nov 2024
- CCNAv7: Switching, Routing, and Wireless Essentials | Cisco Networking Academy | Aug 2024
- Tech Talk 4.0: The Future of AI in Web Development (Participant) | GDSC Widyatama University | May 2024
- Database Design | Oracle Academy | Mar 2024
- Database Foundations | Oracle Academy | Mar 2024
- CCNAv7: Introduction to Networks | Cisco Networking Academy | Jan 2024
- IT Essentials | Cisco Networking Academy | Jan 2023

## ORGANIZATIONAL AND COMMUNITY EXPERIENCE

**Group Coordinator | Diponegoro University Community Service**

*Pedurungan Lor, Pedurungan, Semarang | Jun 2025 - Aug 2025*

- Coordinated with group leaders and RT, RW, and local government representatives during the three-month program.
- Delivered community education on Google Maps business listings and online shop affiliate marketing for a medicinal plant business initiative.
- Served as producer and video editor for an interdisciplinary interview project about a Ngesti Pandowo wayang orang figure.

**Event Committee Member | The Ace 2024**

*Materials Development Team | Computer Engineering, Diponegoro University | 2024*

- Prepared the guidebook and event guidelines for the annual essay competition themed "The Role of IoT in Achieving Sustainable Development Goals".
- Contributed to event material preparation throughout the four-month committee period.
